Simplicity: we strive to make things easy.

lyntia logo

Logo: vertical and horizontal versions

Typographic code: lyntia must always be written in lower case, even at the beginning of a sentence or when it is part of a headline.

lyntia yesterday

lyntia originated from Ufinet, a company founded in 1998 that over the years has expanded its services and opened new markets in America.

lyntia today

lyntia provides a wide range of connectivity services: dark fibre, capacity, FTTH wholesale service, VSAT, and co-location, to empower, facilitate and protect communications.

lyntia in Spain

lyntia's fibre optic network covers the entire country, connecting Spain's major cities and providing services to around 1,200 towns and cities. In addition, lyntia has connections with major underwater cable landing stations in the Iberian Peninsula.

lyntia worldwide

lyntia's objective is to link countries, unite cities and connect businesses. Which is why lyntia, as well as connecting Spain's major cities, also has interconnections with France and Portugal.

lyntia clients

- Operators: National, international and local
- Carriers
- OTTs
- Utility companies
