

# DARK FIBRE

lyntia  
NETWORK TO BUSINESS

With lyntia, you can enjoy wide bandwidths dark fibre in the form of hire or long-term usage rights agreement.

The perfect solution for fast deployment by Spanish or international operators.

lyntia provides an extensive 41,845 km network throughout Spain connected to telephone exchanges, landing stations, and global interconnections. This single-mode fibre optic network is compliant with the ITU-G652 standard.

In addition, we can provide a permanently on-call preventative and corrective maintenance service with full availability.

## SOLUTIONS

- For clients who want to manage their bandwidths
- Offers long distance and capillarity at the same time

## ADVANTAGES

- Immediate availability and deployment
- Allows control by the client
- Management and maintenance by our 24/7 NOC
