

FTTH

lyntia provides the latest Fibre To The Home telecommunications technology. A wholesale access service to our FTTH network with the possibility of including the backhaul with the option of delivery at any neutral node.

A last-mile residential and business service, perfect for operators wishing to have fibre where there is little or no network reach. Furthermore, it is a flexible on-demand because it adapts to the needs of each client.

lyntia's FTTH technology is managed, operated and maintained by our 24/7 NOC, and fully guaranteed.

FEATURES

- Secure and transparent layer 2 bitstream
- Symmetric or asymmetric service
- Possibility of including backhaul
- Wide variety of capacities
- GPON network
- Multi-operator equipment

ADVANTAGES

- Reliability
- Integrated web services
- Management and maintenance by our 24/7 NOC
