

## VSAT

lyntia  
NETWORK TO BUSINESS

We have broad satellite coverage for when you need to reach where nobody else can, thanks to the major international satellites that we operate.

We offer tailor-made solutions based on your clients' requirements: optimisation, design, configuration, and prioritisation in accordance with the applications and services based on the use of protocols for voice, data and video traffic.

lyntia's satellite network complements our fibre coverage through different satellite platforms or through agreements with third parties.

### SATELLITE SYSTEMS

---

Hispasat  
Eutelsat  
Asiasat  
Chinasat

### SOLUTIONS

- Tailor-made solutions on client request (shared or dedicated)
- Unicast and multicast solutions
- Availability of terminals with Ethernet 10BaseT and Serial ports
- Our proprietary Hughes and Viasat terrestrial platforms

### ADVANTAGES

- Highly efficient platforms in the use of satellite bandwidths
- Broad availability
- Bespoke client configuration
- Extensive coverage and speedy deployment
